

THE HAMLIN HERALD

IN 32ND YEAR—EVERY WEEK SINCE 1905

HAMLIN, JONES COUNTY, TEXAS, FRIDAY, JULY 23, 1937.

NUMBER 38.

Pretty Good Rain Fell Monday Night, Helps Crops

Monday was perhaps the hottest day of the year. It remained hot up to late after dark then it became apparent that we were to get a rain or a dust storm.

By morning, Tuesday, rains were reported in various directions. In Hamlin it measured about a full three-fourth inch, was heavier in places and yet light in others. Taken as a whole it was a very nice cooling rain. Did much good in cooling the ground and the air. In the west it was harder especially about Rotan where it is reported it was four inches. Anson did not get as much as Hamlin and Stamford must have gotten a little more.

That 4 inch rain at Rotan must have been an exaggeration. Is it possible somebody was thinking of oil over there and boosted the rain to that almost unheard-of depth. What luck would have been to Hamlin had that FOUR inches fallen right up at the head of our depleted city lakes.

SPEAKING OF WATER

It is not secret that Hamlin is always likely to run short of water when rains fail to fall in clock-like regularity. Anyway it has not rained enough this year to keep the lakes full enough for normal use.

The city placed a restriction on water use last Saturday. None for anything except domestic use—not a drop for irrigation, car washing,

etc. Not a drop to waste. This is a bad situation. It might mean the loss of shrubbery and lawns. It again emphasizes the fact that the safest thing to do about yards in Hamlin is to set out things that will stand a long, long drouth and then come out again.

If anybody has a reachable, practical plan whereby Hamlin can get an ample supply of water, just even a fair quality, they will get a monument to their genius when they have passed over the "river." Trot out your scheme, but by heck, it had better be a solid safe, dependable, ample plan.

The Herald has been "razzed" so much about water till we hesitate to talk it much more. But, by gads, it is foolish to think of trying to keep on with little or no water. A town might get to feel like some people—when they are full they seem to think they always will have plenty—just because a lake gets full is no reason that we should not have even another one just as full, or one that can be filled.

Now then, it is time for a real "four inch" rain in our lake area. Nearly every time the City restricts water usage it rains, it did Monday night and maybe before you read this the old lake will be running over. It would be just too bad for that to happen for indeed the fishes would get away—then let's hope they will just get brim full, not a "drap" over.

HAMLIN OILERS SLICKED HASKELL

Last Sunday the Hamlin Oilers proved too slick for the Haskell Indians, in one of the fastest ball games of the season. At the end of the race the adding machine showed a result of 20 for the Oilers and 7 for the Indians. It was a hot day too for so much running. It looked like the Indians were trying to kill off the Oilers by running in the heat.

Bennie Ford started for the Oilers at the mound and did a lot of slaughtering through the 5th frame and then was replaced by Courtney because of Ford's thumb injury.

This game was a battling battle victory for the Oilers and they took the pill from Pitman, English, Cox and the old wheelhorse Hambricht at the mound. This game probably places Hamlin in 2nd place with Haskell 3rd place.

The season this year will not be split and will end August 29. The towns winning 2nd and 3rd places will play a series of games to determine who will take on the winner of 1st place.

PLAYING ANSON

Down at the Hamlin lot the Oilers will take on the Anson Tigers. This means another good game in Hamlin and maybe if the Oilers still have the holes in their bats well stopped it will be another race track. Let's see.

SWEDONIA CLUB HAS ACHIEVEMENT EVENT

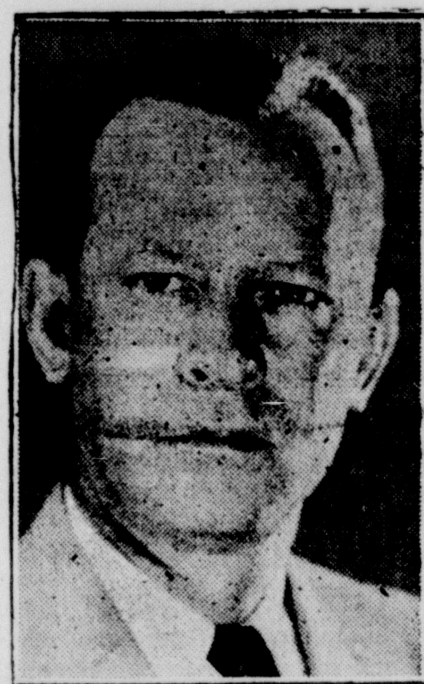

"I have my dresser drawers partitioned in different sections with cardboard boxes," says Leota Bailey, clothing demonstrator of the Swedonia 4-H Club, at the achievement event in her home, Friday, July 16. Leota secured different size boxes from a dry goods store, and covered them with light colored wall paper. The size of the box was selected according to the need. She has such things as the following in the boxes: Handkerchiefs, hose, dress belts, underclothing and sleeping garments. Due to this arrangement her dresser drawers are always well arranged.

The girls encampment is scheduled for Thursday and Friday, July 22 and 23. At this time each girl's club will present a five minute stunt.

The following members were present: Alma Smith, Maudell Farrow, Earline Johnson, Leota Bailey, and Ruby Jean Young. Pauline McCoy and Lillie Bell Mahaffey were visitors. Miss Gertie Young, sponsor, and Miss Joellene Vannoy, Home Demonstration Agent, were also present. — REPORTER.

Mr and Mrs. Tom Pardue and daughter, Jane, of Vivian, Louisiana, and Mrs. D. E. Ford of Chandrant, Louisiana, were guests this week in the home of Dr. and Mrs. A. E. Pardue. Tom Pardue is a brother and Mrs. Ford is a sister of Dr. Pardue.

NEW DISTRICT HEAD

K. K. FRANCIS

ABILENE, July 20. — Appointment of K. K. Francis, of Abilene, to succeed J. A. Brewer as district manager of the West Texas Utilities Company in the Stamford district was announced here this week.

Mr. Brewer, district manager in Stamford since 1935, is being transferred to Childress where he replaces H. H. Monk, who goes to Cisco to fill a vacancy caused by the recent death of P. P. Shepard.

Other changes in personnel, announced by Price Campbell, president of the company, include advancement of W. R. Weaver to the local managership at Spur, replacing Mac Wilson who is being transferred to a similar post at Memphis.

Mr. Francis vacates a position as assistant district manager in Abilene. He will be replaced by Mat Dillingham of Munday. W. E. Cabaness of Memphis takes charge of the Munday properties.

"All of these assignments are in the interest of providing an opportunity for increased productive activity of these various members of the organization," the announcement reads.

Mr. Francis had been assistant district manager here since 1924. He came to Abilene in 1920 from Fort Smith, Ark., where he was employed by the Commonwealth Public Service Company.

He already enjoys a wide acquaintance in Stamford, having served as local manager there in 1924. He also served as local manager for the company in Hamlin and Baird in 1922-23.

Other experience in the electric field includes several periods in the engineering department where he once served as right-of-way purchasing agent.

These changes are effective by August 1.

Mr. Brewer had been district manager in Stamford since 1935, transferred there from Dalhart. In going to Childress he returns to the district where he first entered the company's organization. He began as local manager at Memphis in 1921 and was promoted to district managership at Dalhart in 1930.

OILING HIGHWAY No. 4 RIVER TO FISHER CO. LINE

The Highway Maintenance Department called on the Herald Wednesday and explained that the oil you may see on the highway from the River south to the Fisher Co. corner paving is NOT oil from the Wildcat General Crude Bryan No. 1 well right by the road.

The oil is to be thick enough to soak in about two inches. It may be this is the proper expenditure but Hamlin-Stonewall Co. people want a first class hard surface road.

It will be remembered that a few months ago a contract was let to Ted Smith, a Stonewall Co. man, to hard-surface the highway from Hamlin north to the Fisher Co. corner. It is lucky that Fisher County extended over across No. 4 or that part would not be surfaced. This mile or so is the only hard road between Hamlin and Paducah. But maybe if we all live long enough there will be a road out of Hamlin west and north.

The oil treatment will be appreciated. The road between the River and Aspermont has been laid with caliche except about one mile and half. It seems the government "PWA or XYZ" has played out. Perhaps the entire road will be finished to Aspermont, maybe next year.

GIRLS CAMP HELD AT LUEDERS

The annual Girls' Camp of the Seventeenth District was held this week at the Baptist Encampment grounds at Lueders.

The camp opened Monday evening and closed Wednesday with a large number of girls in attendance.

The program was well planned and carried out, giving spiritual, social and recreational training.

Hamlin girls attending were Misses Pauline Carmichael, Ethel Allen, Betty Merle Routh and her guest, Mogie Cain Routh of Amarillo, Avelene Murphee, Phyllis Gay Milsap, Mildred Barrow, Eva Louise Fowler, Marie Altum, Frances La Verne Sheldene, Twila Ruth Smith, Erma Jewell Altum, Dorothy Fern Routh and Ruth Eckler.

Sponsoring the group were Mrs. Earl Smith and Mrs. G. P. Odom.

WOMAN'S MISSIONARY SOCIETY

The Woman's Missionary Society met in the First Baptist Church Monday afternoon for a study in Royal Service. The lesson on Africa was conducted by Mrs. J. H. Littleton. Others having parts on the program were Mrs. Tom Routh, Mrs. J. C. Harvey and Mrs. W. T. Shepard.

The devotional was given by Mrs. W. L. Boyd, who read a letter that was written from the African Mission Field by Miss Lucille Reagan, a personal friend of Mrs. Boyd's, who spent a number of years in the work there and who died in Africa only a few weeks ago.

The Society will meet next Monday afternoon in circles.

BOY SCOUT CAMP, CAMP TONKAWA, OPENS JULY 25

The next big program of the Chisholm Trail Council, Boy Scouts of America, is the summer camp, Camp Tonkawa, which opens July 25th and closes August 8th.

Camp Tonkawa is for all registered scouts of the Chisholm Trail Council. The campsite is a beautiful one, well shaded, and suitable for all kinds of camping. It is located near Buffalo Gap and also Lake Abilene. A fine concrete swimming pool will be used by the Scouts and all swimming and Life Saving activities will be supervised by experienced American Red Cross Life Savers.

Camp Tonkawa has a reputation for serving excellent meals and a professional cook has been employed for this purpose.

Prof. V. B. Leonard of San Angelo, will direct the archery program. He will furnish all bows, hundreds of arrows, targets, etc., and will give every Scout an opportunity to shoot daily. The Scouts will not be required to purchase any of the archery equipment. The Chisholm Trail Council is glad to be able to get the services of such an experienced archer as Prof. Leonard.

On the camp staff will be Scoutmaster Edwin Burnam, Scoutmaster Rex Palmer, Audas Smith of the National Training School of the Boy Scouts of America, Prof. Leonard, a trained nurse from the Hendrick Memorial Hospital, Executive Ed Shumway and others. Patrol camping will be the plan followed and every scout will be given an opportunity to display whatever leadership qualifications he may have.

Most Scouts are registering for the two weeks. One week will cost \$6.00 and two weeks only \$11.00. The registration fee pays for the necessary camp expenses, swimming, professional cooks, leather equipment, foods, etc.

The first meal will be served at 7:00 P. M. Sunday, July 25th. Scouts are requested to report at the Camp during the afternoon of the 25th to have time to set up tents and get organized. An inspiring religious service will be held around the Council Fire Sunday night and this program and most Council Fire ceremonies will be boy programs.

The Chisholm Trail Council hope that every troop in the Council will register several Scouts at once for Camp Tonkawa. Don't wait for the success of the camp depends upon early registrations.

METHODIST CHURCH

Sunday School at 9:45. Preaching at eleven. At this hour Brother C. A. Long, our presiding elder, will preach and hold the third quarterly conference. At this time he will expect a report from the Sunday School Supt., the President of the Missionary Society, and the pastor. Let each official member be present.

Again we wish to call your attention to our revival meeting which begins the 12th of September, running through Sept. 26th. Rev. B. L. Nance of Lubbock, will have charge of personal and visitation work and Rev. Robert L. Butler of Farwell, will do the preaching. Each of these men have had experience and are as good as can be found. Let each member examine his own soul and ask God to use us in a great forward movement. We call upon all Christian people to pray for us that God will use us for a spiritual awakening which will bring a moral uplift to our community and result in the salvation of many souls.

Bring the whole family. Do not let a lack of nice clothes keep you away. If you have clothes to wear to get the mail you have sufficient clothes to feel at home in our services.

Mr. and Mrs. F. D. Wells and daughters returned last week from Eunice, New Mexico, where Mr. Wells has been employed in the oil industry. He will have charge of the Pat O'Donnell well which is being drilled on the Huddleston farm west of Hamlin.

MISS SNYDER

Wynona Keller as "Miss Snyder" won second place in a beauty revue, the finale of Sweetwater's third annual water carnival and sports festival, which was held this year at the municipal swimming pool. She is the elder daughter of Mr. and Mrs. John Keller and is a student at The Hockaday school in Dallas. The above picture, by Miles Studio, Snyder, is used through courtesy of the Abilene Reporter-News and the Scurry County Times.

Miss Keller's mother, Mrs. John Keller, formerly operated the Vogue Dress Shop in Hamlin, and she and her daughter have many friends in this city.

WILL PREACH AT NAZARENE CHURCH

Elder Jake Richardson, of Robert Lee, Texas, will preach at the Nazarene Church Friday night at 8:30. Everyone is invited to attend this service.

MRS. KEEN IMPROVES HOME

Mrs. J. L. Keen is doing some extensive improvements on her farm home three miles east of Hamlin. With other changes the interior will be reworked and made modern in every way. A. G. Arnett, one of Hamlin's pioneer builders, has charge of this work.

TEXAS GAS WILL BE ODORIZED

Odorization of natural gas on a part of the Lone Star Gas System will begin Monday, July 26, Community Natural Gas Company officials announced. The project is in compliance with a recent law passed by the Texas legislature as a safety measure.

The odorant will be introduced to the system's main lines to permit detection of leaks, and will not affect the usefulness of the fuel, it was explained. When the gas is burned, no odor is noticeable and it will give off no nauseating fumes nor any gas injuries to clothing, furniture, rugs or drapes.

The odorant will be first introduced into the main lines at Gordon, Trinidad, and a point east of Groesbeck, Texas; later at Hollis and Fox Oklahoma, and at a point south of Chillicothe, Texas, and at a number of intermediate points. The odorizing project, reaching most of the towns served by the system in Texas and Oklahoma, will be completed in about three weeks.

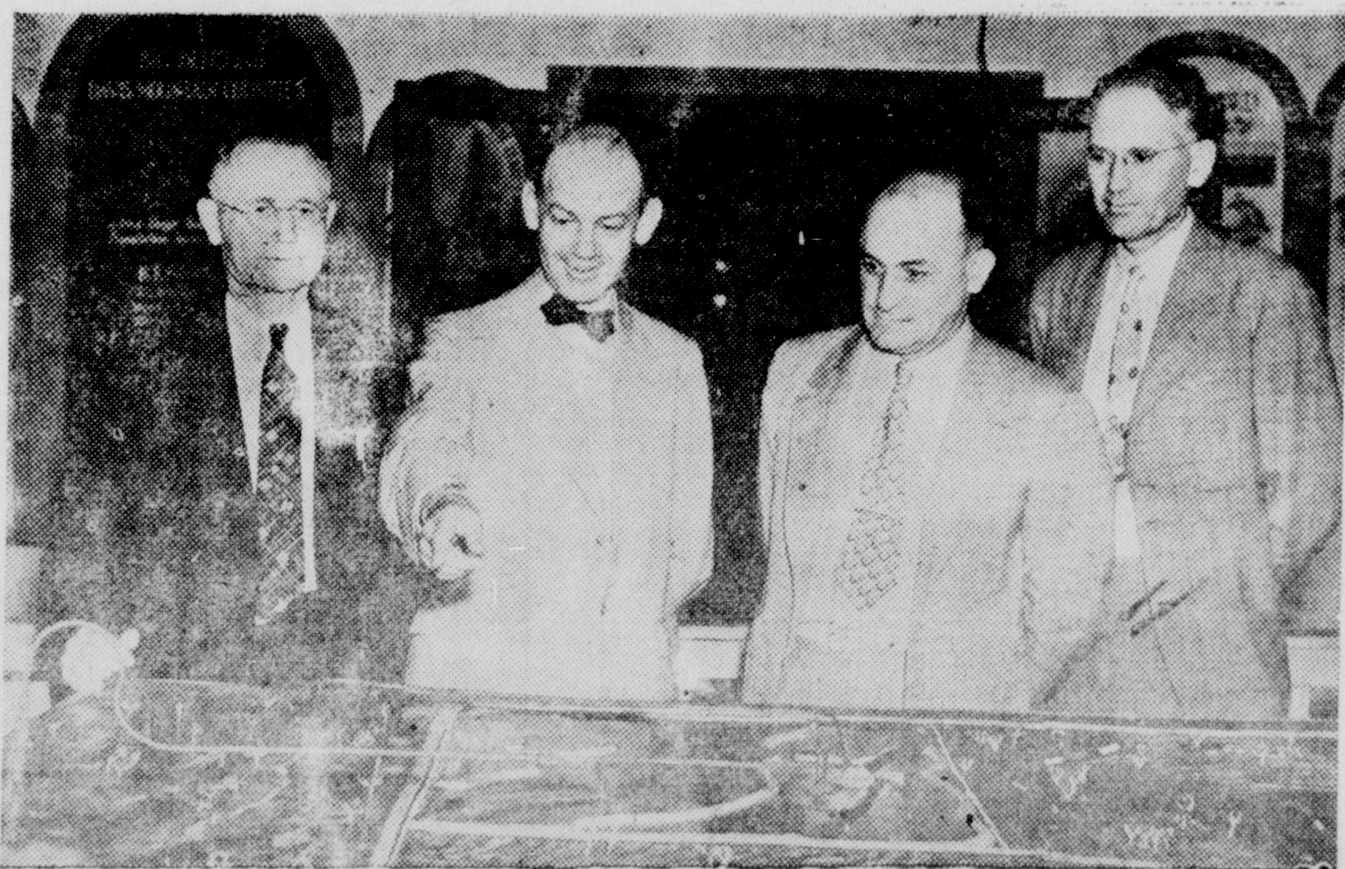

Introduction of the odor will not be noticeable for several days, it was pointed out, because of summer conditions and the low load on the system. Towns farther away from the points of odorization will receive its effect later than those closer to these points.

To some persons the odorant will smell like fumes from a refinery, to others like burning rubber. It will be definitely noticeable if a leak in a line exists or if a cock or burner is left open and unlighted. The company has advised its customers to call a plumber if repairs are necessary. It was pointed out that odorization will not create a hazard, but will warn consumers if a leak occurs in a line or connection.

The Lone Star system is proceeding with its odorization plans now in order to avoid the possibility of waiting until the fall and winter demand starts.

Mrs. B. S. Ferguson, accompanied by Mrs. A.D. Ensey and little daughter, Monnie Anne, Mrs. C. C. Jones, Miss Anne Ferguson, and little Miss Betty Lou Ferguson of Dallas, left Wednesday for several days vacation in various points of Texas. They visited the Dallas Exposition and the Fort Worth Fiesta. Also they visited Mrs. Ferguson's sister in Brooklyn, Texas, and her brother in Huntsville. From there they went to Galveston and Houston where they will spend the rest of their vacation.

WTCC Officials View Fiesta Exhibits

Officers and directors of the West Texas Chamber of Commerce recently made a formal inspection of the West Texas Natural Resources Exhibit in the WTCC building on the grounds of the Fort Worth Frontier Fiesta and viewed with pride the dramatized story of the wealth and potentiality of West Texas. Above, D. A. Bandoen (second from left), Stamford, manager of the West Texas regional body, is pointing out the features of the Federal Soil Conservation Service exhibit which shows methods of holding water on ranch lands. The others are, left to right: Sam Davis, Rule, traffic committeeman; Tate May, Hamlin, and C. A. Studer, Canadian, directors.

A GRAND SON

Mr. and Mrs. Bowen Pope announce the arrival of a grand son, born to Mr. and Mrs. Richard Hinkle, in Pecos, Texas, Tuesday evening, July 20. Mrs. Hinkle before her marriage was Miss Marie Pope, the eldest daughter of Ye Editors. So it is not out of place to say "Grandfather and Grandmother Pope these days. The mother and her seven and half pound boy are both doing fine.

THE ROW THE EDITOR HOES

I am confident that all newspaper editors will go to heaven. No matter how eloquently the development and progress of his community, no matter how diligently he may labor to build up his home county, no matter how loyally he supports a friend in politics, extolls the virtues of a famous son, stretches the truth to praise a local prima-donna-to-be, or gently lays a metaphorical wreath on the grave of a departed, he seldom hears a "Thank you." Rarely does anyone say, "Well done." Almost never does he hear, "We appreciated that." But let him make a dip

WASHINGTON NEWS

FROM CONGRESSMAN
CLYDE L. GARRETT

THIS COLUMN is initiated in an effort to present to constituents of the Seventeenth Congressional District a picture of developments in the Legislative, Executive and Judicial branches of the National Government. I shall avoid presenting controversial issues other than to give their status. I am led to believe that the readers of this paper are interested in these occurrences because of the inquiries received in my office through the mail.

FARMERS FAVORED—That more than 100,000 cotton growers who purchased in excess of \$3,500,000 in cotton tax exemption certificates under the Bankhead Act are entitled to recover their payments, was ruled by the District of Columbia Court of Appeals. Many of our farmers come under this decision and they should investigate their rights.

MINING BILL—Senator Thomas, (D-Okla.) has introduced a bill providing for the leasing of lands, within an Indian reservation or owned by a tribe or group of Indians, for mining purposes by authority of the tribal council or other spokesmen for such Indians if the Secretary of

Dallas Casino Star

Lanny Ross, golden-voiced tenor and favorite of the airwaves, opens a two-weeks' engagement in the Casino at the Pan American Exposition in Dallas Saturday, July 24. A star of stage and screen, Ross was chosen as America's No. 1 singer in a recent radio poll.

the Interior approves. Leases, for terms not over 10 years and renewable as long as minerals are produced, could be made. The bill was referred to Indian Affairs Committee.

FINANCIAL REPORT—With the exception of the Civil and World War periods the Government has followed a "pay as you go" policy. This is shown by the budget history of the U. S. up to 1930. July 1, started a new fiscal year. Secretary of the Treasury, Henry Morgenthau, reports that at the beginning of this fiscal year, the deficit of \$2,707,000,000 is about \$150,000,000 above the revised budget estimate made April 20. It is the smallest, however, of any of the four fiscal years the present Administration has been in office.

LOCOMOTIVES TO CHINA—The Import-Export Bank will participate in sale of American locomotives to China was announced by Jesse Jones recently. The orders which total approximately \$1,500,000 have been received by two large manufacturers.

APPROPRIATIONS—A bill to appropriate \$99,880,000 for the Railroad Retirement Board and \$350,000,000 for the CCC during the new fiscal year, were approved by the House Committee on Appropriations and passed by the House. Included in the Resolution was \$50,000 to finance the tax evasion inquiry and it sets up a \$500,000 revolving fund to pay losses on any government shipments.

INCREASE IN EMPLOYMENT—Employments by class one railroads in the past twelve months has increased from 1,049, 723 to 1,131, 030 reports the Interstate Commerce Commission. Payrolls in the same period advanced from \$148,993,648 to \$163,953,073.

FARM AID—Congress has been busy debating on the \$135,000,000 farm tenancy bill. It is designed to aid three million farm tenants and sharecroppers with loans to help them buy farms and to provide rehabilitation aids and submarginal land retirement.

TRANSIENT LABOR PROBLEM—President Roosevelt has been asked by Rep. H. Jerry Voorhis (D-Cal) to give Federal cooperation in solving California's transient labor problem. He specifically asked that additional resettlement camps be established in the State.

NEW LABOR LAWS—The President recently sent a message to Congress asking legislation concerning recommendations adopted by the 20th session of the International Labor Organization at its recent conference at Geneva. The following points were outlined: "The regulation of special systems of recruiting workers," the "progressive elimination of recruiting," the "reduction of hours of work on public works," and "annual holidays with pay."

RATIFICATION—The Senate has ratified the eight treaties negotiated at Buenos Aires in a conference of American Republics in January. President Roosevelt opened the conference in person. The chief interest of these treaties from the Latin American viewpoint is the fact that the Monroe Doctrine is defined in terms of the common interest of all the countries.

VISITORS—This week we were greeted by several visitors from the

NEW NEW

Science has invented a new unbreakable lens to replace the old time optical lens. The new lens are not only unbreakable but are less than half as heavy as glass. Admits 15 per cent more light and reflects less glare.

DR. L. P. McCRARY

Eye, Ear, Nose and Throat, Specialist

District. Mrs. Hattie Gray of Roscoe and Miss Annie May Gray, Miss Winna Harris and Miss Dorothy Tims of Sylvester, were here on their way to the New England States. Mr. Joe Weaver of Eastland, was in to see us on Wednesday. Mrs. Snow of Abilene was also a visitor several times during the Boy Scout Jamboree. She was here with her two son. Charles Casey of Tuscola was also a visitor here over the Fourth.

JAMBOREE—This town was taken by storm by 25,000 Boy Scouts. They have been a well behaved gang and one which has made us all proud of the youth of our land. Texas boys made a fine impression and none of them stood out like the boys from our part of the state with their stunts. Horned frogs and cow boy stuff made a big hit all over town. We were glad to see all of them and enjoyed their visits to the office and around the capitol.

MORE VISITORS—Billy Dillin, of Comanche county, has been in to see us several times the past week. Gerald Porter of Stamford, was in the office also the past week. He is attending the Institute of Public Affairs. Dr. Sandefer of Abilene, also visited us recently, as did Tom Hudson and family of Anson.

TEXAS ADVERTISING was well and capably done by the boys scouts while here. The boys from our section of the State had plenty of fun swapping horned toads for souvenirs. They brought a fancy price at the last of the jamboree. One of the boys took an alligator home with him which he got from a Florida boy.

THIRD Monday Traits just keep popping up in the Texas contingent. When the Scouts broke camp Cockrill and I went down to tell the boys good-bye. Cockrill got all the cac-

When Women Need Cardui

If you seem to have lost some of your strength you had for your favorite activities, or for your housework . . . and care less about your meals . . . and suffer severe discomfort at certain times, try Cardui! Thousands and thousands of women say it has helped them.

By increasing the appetite, improving digestion, Cardui helps you to get more nourishment. As strength returns, unnecessary functional aches, pains and nervousness just seem to go away.

An open mind and a closed mouth may be part of the same head.

NO RELIEF—The weather is getting extremely warm here in Washington, but there still seems to be no relief in view for Congress. It is very likely that we will not adjourn before August 15. Chances are more likely it will be around September 1st. There is still a great deal to be done and much legislation to be worked on.

INSURANCE FOR CROPS—The Crop Insurance Bill has an even chance to be passed by the House. The bill has already been approved by the Senate. This resulted in insuring the 1938 wheat crop at a cost to the Government of about \$10,000,000 as an experiment.

HELIUM—The House Committee on Military Affairs has approved a bill for the purpose of exporting helium for commercial purposes under the supervision of the National Munitions Board and three Cabinet officials. The bill came about because of the recent disaster of the "Hindenburg" and because of the fight put up by Dr. Hugo Eckner, Zeppelin expert. He said that it was necessary in order that lives and ships would be safeguarded, that the U. S. sell helium to other nations.

PROSPERITY AHEAD—Although the labor unrests have caused a considerable drop in activity and production, a new recovery peak is now predicted. It is expected that once these disturbances are settled and activity is renewed, the country is bound to come back to prosperity. Normal farm crops are expected to aid in recovery.

SILENCE—The President is maintaining a discreet silence in all phases of the labor situation. He refuses to comment on published reports that he had "split" with John L. Lewis, the CIO leader. He has commented on the wage and hour bill, however, by saying that he was hopeful of favorable action on it.

Middle age is the period when you don't care where you go just so you get home by night.

Father—Isn't it wonderful how little chicks get out of their shells?
Son—What gets me is how they get in.—The Earth Mover.

ALWAYS COOL and COMFORTABLE

Mrs. J. L. Beavers returned Tuesday from Tucumcari, New Mexico, where she spent several weeks with her sister who is recovering from a major operation.

Mr. and Mrs. Holly Toler and little daughter, Suzanne, who have been visiting Mrs. Toler's parents, Dr. and Mrs. A. E. Pardue, returned Monday to their home in Austin.

Which Is the Beauty?

First glances at the Most Beautiful and Most Popular girls at Texas State College for Women leave some doubt as to which is which, since both could well qualify for beauties. However, facts reveal that Miss Irene Pyle, left, is the lovely lady, and Miss Judith Stegman, right, was elected most popular. Miss Pyle, daughter of Mr. and Mrs. J. W. Byle of Celeste, is a senior English major. Miss Stegman, whose home is in Brownsville, is active in college dramatics and will receive her degree in Speech this August.

Mr. and Mrs. Loy Fry and son, Loy Jr., went to Dallas Sunday. Mr. Fry and Loy Jr. returned Wednesday and Mrs. Fry remained for a two weeks visit.

Week-end guests in the home of Dr. and Mrs. A. E. Pardue were Dr. and Mrs. J. C. Anderson, of Austin, and Mr. and Mrs. Arche Pardue and little daughter, Nancy, of Stamford.

Mr. and Mrs. Earl Temple and family, of Lamesa, came Friday to visit their father, W. N. Temple, and sisters, Mrs. Hibbs Milsap and Miss Eleanor Temple. They left Saturday for Waco, Moody, Houston and Galveston to visit relatives. W. N. Temple accompanied them on this trip.

Miss Geneva Albritton is spending several days vacation in Cameron visiting school friends.

Miss Joyce Hudson is in Ackerly visiting her aunt, Mrs. J. E. Griffin and family. His parents, Mr. and Mrs. M. T. Hudson will join her this week end and go on to visit the Carlsbad Caverns.

Mr. and Mrs. D. J. Herbst and E. Kirksey visited E. H. Proffitt and family at Glen Rose last week. They say the Proffitt's are doing fine and that Mr. Proffitt's health has become good. One thing attractive to the Jones County folks was that they raise all they want to eat—fresh from the garden—that's something to talk about.

A GOOD CURE FOR UNHAPPINESS IS TO BE UNHAPPY

She had fallen in love with a college professor. For five years their hopeless passion had been devouring them both, and the misery of it had taken all the taste out of her life.

By KATHLEEN NORRIS

ONE of the simplest ways to help cure unhappiness is to be unhappy.

This sounds like sheer nonsense, but it has a profound spiritual truth beneath it; it has beneath it the truth that has made saints at once the least fortunate and the happiest persons who ever lived.

Sometimes, when life is going all wrong, when debt and anxiety and work and discouragement are piling up like mountains all about you, it is a bracing and healthful thing to ask yourself why you expect ever to be happy in this twisted world, anyway, and whether you are not wasting your time in attempting to achieve felicity in a scheme that is so obviously all crooked.

Once grasping this point of view firmly you find that a great many things are left you, and some of them are good things. You have service, sleep, books, meals, prayer, and—if you really have withdrawn yourself from anxieties—you have peace of mind.

In straining after that chimera "happiness" we humans have a way of making ourselves completely unhappy. Ambition is one of the keenest agonies the heart can know, because it is almost always accompanied by the misery of jealousy and passes by so much that is good while struggling to reach that which looks better. No goal is as satisfying as the road to that goal. Among the wretched women of the world are those whose husbands have risen from poverty to wealth. Wealth usually costs them their husband's affection; bigger things so monopolize his time that he has small leisure for the old affectionate companionship he and his wife once knew.

The minute that an unhappy woman puts herself completely out of the picture, acknowledges temporary defeat, admits that things aren't going the way she wants them to go and don't seem likely to change; the minute she resolves not to want anything again, not to complain, but to quietly live for the happiness of others, that moment her spirit begins to rise toward a new kind of joy in living, a real kind, and in that moment all the tangible things that affect her, her associates, her environment, her very health and her looks begin to move a little nearer to her ideals.

About two years ago a woman named Margaret Baker wrote me that her life was in ruins and that she wanted to end it. She had been married then for seventeen years to a man who had long ceased to thrill her, and whom she said she had ceased to love. They had two boys of fifteen and eleven, and a quite small girl. They lived in a college city, owned their small home, had a car; and, to outward seeming, were just one more plain little American family among a million. Margaret's neighbors all seemed happy enough, but she was racked with despair. She had fallen in love with a certain college professor; for five years their hopeless passion had been devouring them both, and the misery of it had taken all the taste out of her life.

Arnold couldn't give up his wife and delicate child; Margaret couldn't desert Paul—little Paul, Peter and Janey. But how she suffered! She grew thin; there was a dazed look in her eyes as she went about her household duties; automatically she moved through all the usual events of life; underneath it was all bewilderment and pain.

The college town being about fifty miles away from where I live, I wrote her and asked her to come to see me. She came, bringing an exquisite little daughter. She said she liked Paul well enough. She said she had perfect health. And she said she wanted to die because she was so utterly miserable.

After quite a long talk she was persuaded to do three things: First—to go home and have a long talk with Paul, in which both would agree to forget the past and begin again. This was most fortunately made easier because the other man and his family had moved away some months earlier, and were living in Kansas. Second—to try to get her system into shape by giving up everything that upset her nerves; she was an excessive user of both cigarettes and coffee; she promised to cut the former down to

a reasonable number, and try a coffee substitute. The third requisition was to accept unhappiness.

Instead of fretting, she was to say to herself in depressed moments: "Other women perhaps are happy. I am not and I cannot be. But I can see that Paul and the children are happy, and relieve my mother's anxieties about me by forgetting my own happiness completely. Why should I be happy? Millions of women just as wise and good as I am actually hungry, and they see their children hungry. Millions of women have no homes, no beds, no one to help them. For all my unhappiness I am warm and fed, I can read, I can dress my children decently, educate them, plan amusements for them. My husband, despite the wall that has grown between us, is yet a good man and a kind man. Let me be unhappy. What does it matter? If what I have means nothing to me, and what I cannot have means everything, who cares but myself, and if I never show that I care, who will ever know but myself?"

This woman went home to try the new plan of being unhappy. The result was so remarkable that if I detailed it here it would sound like one of my own stories, which always have to have happy endings. They always have troubled beginnings and happy endings because trouble is the one sure thing we all manage to bring into our lives, and yet with God's grace there is always a way out to happiness.

Suffice it to say of Margaret Baker that, if she had found it hard to be happy, she found it absolutely impossible to be unhappy. In spite of herself the mere joy of living, her pride in her children, her sense of security and importance in being their mother, and the wife of a good man, would be revealed. Having accepted misery as her lot, she suddenly and strangely became ashamed to expatiate upon it in the old fashion to her intimates. It did sound too ridiculous, with all she had, to go on mooning about a man who belonged to someone else!

Her new, gentle, considerate attitude toward Paul melted the ice of bitterness that he had felt for five years; somehow it touched her oddly to see with what eagerness, with what clumsiness, he tried to help her bury the unhappy past. Her newly adjusted nerves and intelligently handled diet problem contributed to the general rebirth of the Baker family.

If you think you can't possibly be happy, try the effect of a cheerful, self-forgetting, serving unhappiness. The result is sometimes very surprising.

Earl's Coronet Sold at Knock-Down Price

The poet, Tennyson, says somewhere, "Kind hearts are more than coronets, and simple faith than Norman blood," from which it might be gathered that a coronet ranked high in his estimation. One wonders what the great Victorian would have written had he lived to record that an earl's coronet had been picked up for a few pounds in a second-hand shop in Dublin, says the Philadelphia Inquirer.

In fact that has been the tragic history of the coronet of the earls of Westmeath. A real genuine honest-to-goodness silver-gilt coronet with cloth-of-gold tassel and ermine base, it reposes in more suitable surroundings amid the tattered tabards and old heraldic devices of the office of Ulster king of arms in Dublin castle. It is on exhibition there for all to see who may visit that quaint and unique place. It is accompanied by a card notice which says: "Earl's coronet, lent by an army officer."

The officer found the coronet in Dublin, and at once purchased it for \$20. Himself an expert in heraldry and an officer in Ulster's department, he at once realized its value, and rescued it from the melting pot to which it would inevitably have gone had it fallen into other hands. It will, no doubt, soon find its way back to the Westmeath family, where it rightly belongs.

It is believed that during the sale of the late earl's property the coronet was accidentally included in a lot of miscellaneous articles by a servant who did not realize its importance and thus fell into the hands of a dealer in that kind of property.

KNOW TEXAS

By F. L. McDONALD, T. S. C

DENTON, Texas, July 14. — may not mix with water, but idently does a good job of it roses. One of the centers o East Texas oil field is also the ter of the East Texas rosegr industry, which now furnishes r half the nation's supply of rose es annually.

Outdoor rose nurseries were gun in Texas over twenty years but they did not gain momentum til with the past five or six year 1935 production mounted to 4,000,000 plants, and the f another jump in 1936 to 6,000,000. This means that thal income now reaches approxin ly one million dollars.

This million dollar rose bush iness is not a hothouse affair, b confined strictly to the open Soil and climate condition in parts of Texas are particularly suited to rose growing.

Smith county, which ships ar 7,000,000 plants annually, is heart of the industry, and other portant farms are in Gress, Zandt, Rusk, Henderson and Al son counties.

Rose creations which are dev ed by breeders and distributors the United States are sent to r East Texas farms for multiplia The field grown roses of Texas the weakness of hothouse plants, can be shipped anywhere in the tion.

Mrs. C. G. Green left Monday Wolfe City to visit relatives. She accompanied by Mr. Green, who turned Tuesday to resume his s duties.

Mrs. W. C. Burds, of Dallas, is a guest in the home of her si Mrs. A. G. Hudson, has been ver but at present is reported to be covering nicely.

Mr. and Mrs. H. R. Hearn, of las, came up Monday for a visit. Mr. and Mrs. J. Ubben. Mr. H is with the Texas Oil Co.

HAMLIN HOSPITAL NOTES

Mrs. A. B. French and little daughter, Laveta Mae, of Tuxedo, were dismissed from the hospital July 17.

Little David Rowland, son of Mr. and Mrs. Brad Rowland, was admitted to the hospital July 17 and underwent major surgery. His convalescence has been uneventful.

Mr. and Mrs. C. B. Roberts are the happy parents of a son, Donald Clayton, born July 18. He weighed nine pounds and 13 ounces. Mrs. Roberts and little son were dismissed from the hospital Thursday morning. It will be remembered that Mrs. Roberts, who is a graduate nurse, formerly worked at the Hamlin Hospital.

Mrs. A. A. Bessie was admitted to the hospital Wednesday night as a medical patient.

DON'T SCRATCH! Paracide Ointment is guaranteed to relieve itching caused by Exema, Piles, Athletes Foot, Itch or other skin irritation. Large Jar on 50c at

WAGGONER'S DRUG STORE

Miss Jane Whitelaw, of Brownsville, Tenn., who has been spending a week with her sister, Mrs. John F. Green, left Tuesday for Hillsboro to visit her parents.

Mr. and Mrs. J. M. Rippetoe returned Sunday from Lipan where they spent their vacation with their parents. Mr. Rippetoe is a pharmacist at Reynolds Drug Store and Mrs. Rippetoe is a saleswoman for the Smith Dry Goods Company.

Misses Elsie Wienke and Meddie Mae Bynum left Monday for Galveston where they were joined by Miss Edwina Gilbert who has been visiting in Dallas. They will sail this week for Havana, Cuba, for a two weeks trip.

Mr. and Mrs. Coy Fielder are spending a week's vacation in Galveston. Mr. Fielder is employed in the Farmer's and Merchant's National Bank and Mrs. Fielder is one of the saleswomen for Smith Dry Goods Company. They were accompanied as far as Georgetown by Mrs. Joe Simpson and little daughter, Faith, who will visit her parents, Mr. and Mrs. Lott Shell Sr. and other relatives.

WISE CHAPEL ITEMS

(By CATHERINE DRAKE)

We had a very nice shower Monday night.

Mr. and Mrs. Dave Herbst and E. Kirksey spent last week with Mr. and Mrs. Earl Proffitt of Glen Rose.

W. A. Norris of Abilene spent the week-end with his wife and daughter and Mr. and Mrs. Oscar Jenkins and family.

Mrs. E. A. Isbill spent last week in McGregor.

Miss Catherine Drake spent last week visiting relatives in Post and Grassland.

Mr. and Mrs. A. P. Proffitt spent Saturday and Sunday with Mr. and Mrs. Lenard Proffitt and family of Anson.

Neal A. Chastain of Spur is visiting his grandparents, Mr. and Mrs. W. L. Fletcher, Sr.

Mr. and Mrs. Bert Fomby visited in Merkel Sunday.

Mr. and Mrs. Dave Herbst spent Sunday with Mr. and Mrs. V. H. Giles of Anson.

Connie Drake and sisters motored to Aspermont Sunday afternoon.

Clarence Proffitt returned to his home in Glen Rose last week.

Lamar Heyes and daughter, J. P. Smith of Flat Top, and Mr. and Mrs. Jess Richard Bonds of Hamlin spent Sunday with Mr. and Mrs. Joe Bonds and family.

1000 BOYS IN CITIZENS

MILITARY TRAINING CAMP

Fort Sill, Okla., July 20.—Approximately 1000 boys from Oklahoma and Northern Texas arrived at Fort Sill Sunday and Monday, July 4 and 5, 1937, for 30 days training in the Citizens Military Training Camp. Officer by Reserve Officers and supervised by regular Army Officers from the Fort Sill Army Post, these boys spend their days in healthful work, and recreation.

With the first formation at 6:00 A. M. the boys are kept busy until "taps" at 10:00 P. M. They have three wholesome meals each day and are served sandwiches and milk daily at 10:00 A. M.

The morning hours are spent in Military Drill and instructions, calisthenics and policing their tent area.

The afternoons are all devoted to organized athletics under the direction of the regular army officers; these athletics include, swimming, baseball, basketball, volley ball, tennis, track, softball, wrestling and boxing. In the evening the trainees are entertained by stunt nights, wrestling and boxing matches and dances every Friday.

Every precaution is taken to protect the health of the enrollees by having a medical staff in constant attendance at the camp infirmary and a medical officer attendance at athletic contests. Mess is regularly inspected, and every trainee bathes each day.

From the time the trainee reports in the camp till they are mustered out they are constantly under the discipline and control of the army, and lead a vigorous health life out of doors.

Enrollment in these camps is purely voluntary, and their purpose is mainly the training of the candidate for proper citizenship. Trainees receive a travel allowance from their home to Fort Sill and return, but no other pay. They must be not less than 17 years of age to take the basic courses, and not over 31 to take the advanced courses. They must pass a physical examination upon entering camp. If the basic, red, white and blue courses are completed, for a period of four camps, the trainee completing all four courses is eligible, upon passing an examination for a commission as a reserve officer in the U. S. army.

A list of the trainees from your county and enrolled at this camp follows:

James D. Barton, Bill M. Harris, Stamford George Bryson, John T. Durham, Raymond R. Elkins, James D. Hall, Bert D. Locke, James I. Steed, John M. Taylor, Roy E. Tims,

Mrs. H. T. Nelson and her daughter and husband, Mr. and Mrs. R. E. McLaren, of Galveston, are here for a ten day visit with Mrs. Nelson's sister, Mrs. O. L. Cohorn and family.

Mr. and Mrs. Jack Wilson, of Hollis, Oklahoma, were here Monday and Tuesday to visit relatives and friends. They went on to Abilene to visit Mrs. Wilson's mother, Mrs. J. C. Randle and will return home by Dallas. Jack is manager of the M. T. York store in Hollis.

BOYD CHAPEL CHIRPS

MRS. EARL BROWN, Correspondent

Everyone enjoyed the nice rain we had Tuesday morning.

Mr. Hardy Bingham and Mr. Bishop Bristow left for Kermit, Sunday.

Mr. Thompson Young and family spent Sunday with Mr. and Mrs. Bert Killingsworth at Sylvester.

Mr. L. F. Cozzen and family and Miss Cloveta Estes visited with Mr. and Mrs. Vaden Lester Sunday.

Miss Ethel Fleming visited with her father, J. R. Fleming, last week-end. Ethel has resigned her position as nurse in the Stamford Sanitarium and accepted a position in the new hospital at Winters.

Mr. and Mrs. Judge Crow and daughter, Edna Maude, are visiting in Florida and Georgia.

George Harris of Abilene, spent the week-end with Mr. and Mrs. F. L. Wood.

Mrs. Alvin Dean returned Monday from a few days visit with relatives at Lubbock.

Mr. and Mrs. Jack Terrell, of Odessa, spent the week-end with their parents, Mr. and Mrs. J. H. Allen.

Mrs. Ollie Estes and Miss Betty Cozzen were hostesses at a surprise birthday party for Miss Cloveta Estes Tuesday evening. A large crowd enjoyed the evening playing forty-two and other games.

Mrs. Leon Rogers was given a bridal shower at the home of her mother, Mrs. J. P. Bingham, on last Friday afternoon. Mrs. L. F. Cozzen and Mrs. Dorsey Bingham directed interesting games. After the large shower of gifts was presented to Mrs. Rogers, delicious refreshments of sandwiches, cookies and iced tea were served.

MISS CLYDENE WILSON

ADMITTED TO

MARY ARDEN CLUB

Denton, Texas, July 21. — Miss Clydene Wilson, daughter of Mr. and Mrs. M. C. Wilson of Hamlin and a junior at the North Texas State Teacher College here, was last week admitted into the membership of the Mary Arden Club, social and literary organization for women, following a two weeks' pledgeship period. Initiation activities were climaxed with an impressive candlelight ceremony, traditional with the club.

Organized in 1902 and federated in 1915, the Mary Arden Club belongs to the City, District, State, and National Federations of Women's Clubs. It holds periodic literary study meetings, and in addition offers a varied social program of teas, breakfasts, banquets, and dances.

The Mary Arden Club is one of 38 organizations at the college to fit the needs and interests of every type of student. The College's roster of clubs includes five national honorary societies, five fraternities, two sororities, two service clubs, four women's literary and social clubs, and fifteen clubs taking in the fields of dramatics, music, debate, athletics, and the various academic subjects.

Surveys indicate that practically all students participate in these extra-curricular activities. Last year, out of a student body numbering over 1,900, approximately 95 per cent belonged to at least one club, 50 per cent to at least two, 43 per cent to at least three, and 16 per cent to four or more. —N. T. S. T. C. News Bureau.

JUST a word to my FARMER FRIENDS: If you are going to plow your land that you had in grain, let me Roll your Discs for you. I am an old hand at this and will do your work right at a reasonable price.

Yours truly,

O. G. EBERT (38-4p)

Miss Mary Beth Moody, daughter of Mr. and Mrs. J. E. Moody, left Thursday for Boulder, Colorado, to enroll as a summer student in the University of Colorado.

Mrs. A. B. Campbell and daughter, Miss Mae Delle, of Clayton, were guests from Monday until Wednesday in the home of Mr. and Mrs. Burns Eakin.

Staying up all night may make you as wise as an owl—but owls have very little sense during the day.

Here is a little news item: Doke McMahon and Gene Robinson recently slipped off to Old Mexico on a fishing trip. They went to the famous Don Martine Lake, which is reached by way of Eagle Pass. They had plenty of good luck but found rivers very low.

COLLECTING LIQUID RUBBER ON FIRESTONE PLANTATIONS IN LIBERIA

An ever-increasing supply of rubber comes from these plantations. Savings made by controlling raw materials and by more efficient manufacturing and distribution make extra values possible at no extra cost.

BECAUSE in Firestone Standard Tires—

YOU GET EXTRA PROTECTION AGAINST BLOWOUTS—eight extra pounds of rubber are added to every 100 pounds of cord by the Firestone patented Gum-Dipping process. By this process every fiber in every cord in every ply is saturated with liquid rubber. This counteracts dangerous internal friction and heat that ordinarily cause blowouts.

YOU GET EXTRA PROTECTION AGAINST PUNCTURES—because under the tread are two extra layers of Gum-Dipped cords.

YOU GET EXTRA PROTECTION AGAINST SKIDDING—because the tread is scientifically designed.

YOU GET LONGER NON-SKID MILEAGE because of the extra tough, long-wearing tread.

Before leaving on your vacation trip, join the Firestone SAVE A LIFE Campaign by equipping your car with a set of new Firestone Standard Tires—today's top tire value.

TEXAS

TEXAS MARBLE RANKS HIGH SAYS GEOLOGIST

DALLAS, July 21—While the problem of what to do about "marble boards" is bothering Texas and many of its cities, the question of doing something about Texas native marble may soon prove a more important one—and its solution far more profitable.

Quarrying and marketing of one of the world's richest, most varied, and most easily accessible deposits of high-grade marble could be made one of the biggest new industries of the Lone Star state, according to a report to the All-South Development Council by Dr. H. M. Law, Dallas geologist who has made a first-hand study of the state's limestone and marble resources.

The eye-filling display of scores of handsome marbles Dr. Law has assembled for the new Greater Texas and Pan-American Exposition, an expansion of the 1936 Centennial exhibit, has brought potentialities of a Texas marble industry dramatically to the attention of thousands, among them many influential Texas business men who have expressed interest in developing it, said Judge John M. Spellman, director of the Natural Resources Committee.

Interesting skilled merchandisers and investable capital in converting these possibilities into real "merchandise," thereby creating profitable employment for hundreds and new wealth for the state, is one of the aims of the committee.

Adoption by the state of a more reassuring policy with regard to natural resource taxation would, the Council's report points out, greatly simplify the problem of attracting capital and enterprise to the development of this, as of many others of the state's more than 100 yet undeveloped resources.

Decrying a lack of showmanship comparable to that of a butcher who "would try to sell steaks from a steer still out on the range," Dr. Law said that all Texas marble needs to become a gigantic "cash crop" is the relatively modest investment in equipment to harvest and polish some representative commercial samples of the state's 750 varieties, some smart and vigorous salesmanship on behalf of the material, and assurance to the architectural world that it could be supplied in quantity on reasonably short notice.

The "oyster age" of several million years ago laid down a bed of deep sea shell limestone marble extending in a 400-mile diagonal from the Red river to the Pecos, about 40 miles wide and 1,000 feet deep. This deposit, Dr. Law's report said, contains "more marketable volume miles the way you're goin', but if of this unusual type of marble than you turn around it ain't but four."

combined similar deposits of any five states."

At present this particular type of marble, whose polished cross sections reveal interestingly its oyster "ancestry" in ornate configuration, is not on the commercial market at all. In fact, thousands of acres of it have been "wantonly" crushed for use in road building, with no appreciation of its uniquely ornamental value.

Less distinctively Texan, but even more important commercially, Dr. Law said, is a similarly inexhaustible vein of dense limestone marble which outcrops over the counties of Burnet, Blanco, Mason, Gillespie, Llano, Lampasas, San Saba and McCullough. Resources of this deposit alone are equal to the marble contents of any two or three states in the Union.

"With about \$3,000 worth of quarrying equipment and a little time we could have supplied, from our own Texas deposit, the counterparts of all the fancy marbles from Italy, Spain, France, Tennessee and Vermont that have made the State of Texas building an outstanding architectural triumph," Dr. Law said. Texas buildings annually use more than \$2,000,000 worth of marble imported from other states which have done a better merchandising job with no better materials, and have presented an inviting front to resource-conversion industries, the report of the council concluded.

INZER DRUG STORE OFFERS FREE SAMPLE OF NEW HIGH BLOOD PRESSURE TREATMENT

Every High Blood Pressure Sufferer in Hamlin is urged to go to Inzer Pharmacy and receive a free sample of ALLMIN Essence of Garlic Parsley Tablets for High Blood Pressure. These are the tablets used by Dr. Frederick Damrau, eminent physician of New York City, in his now famous clinical work, when he reduced the blood pressure and relieved dizziness and headaches in the great majority of all cases treated. Get a copy of Dr. Damrau's interesting report, along with your free sample of ALLMIN. A special new process by which these tablets are produced makes them both tasteless and odorless. A two weeks' treatment costs only 50c.

(33 34 35 36 37 38)

All who have meditated on the art of governing mankind have been convinced that the fate of empires depends on the education of youth.—Aristotle.

A tourist stopped his car on the road and asked a little country boy how far it was to Smithville. The little boy replied: "It's 24,999 miles the way you're goin', but if you turn around it ain't but four."

TEXAS RANKS HIGH AS MANUFACTURING STATE

The Texas Planning Board's survey of Texas industries discloses that:

New manufacturing industry is coming into Texas at the rate of more than \$2,000,000.00 per month.

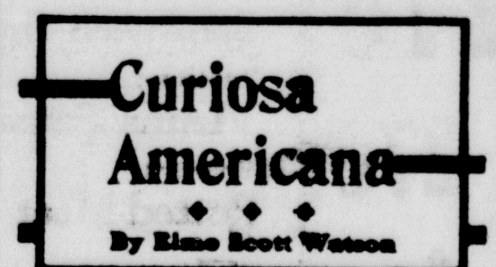

Texas factories are employing 93 per cent more persons in 1937 than in 1933 and 33 per cent more than in 1929.

Texas factories add \$400,000.00 annually to the value of Texas raw materials fashioned into Texas made goods.

Texas is the largest manufacturing state south of the Mason-Dixon line.

Texas ranks second among the manufacturing states west of the Mississippi.

Greatness abhors ostentation as much as it loves simplicity.

Glory, Glory, Hallelujah!

WHENEVER you sing Julia Ward Howe's "Battle Hymn of the Republic" or "John Brown's Body Lies a-Mouldering in Its Grave" with its thundering chorus of "Glory, glory, hallelujah!" you unconsciously pay tribute to the memory of a forgotten American composer who deserves, but lacks, the recognition that has been given Stephen A. Foster. Also you perpetuate "a joke on a sanctimonious brother-in-law." Here's why:

The composer was Thomas Brigham Bishop, a Maine farm boy whose fondness for strolling around strumming a banjo or guitar and "making up tunes" was a source of great annoyance to his serious-minded brother-in-law. One day the brother-in-law had an attack of religious fervor, slapped himself on the chest and shouted "I am bound to be a soldier in the army of the Lord! Glory, glory, hallelujah!"

The swing of those lines kept running through Bishop's head and after a while he put a tune to them—the tune now so familiar to all Americans. Back in those days, just before the Civil war, this song, just two lines, verse and chorus, became the favorite at revival meetings "down East." Later, Bishop, taking the same air, adapted it to new words suggested by the Harpers Ferry raid and the famous "John Brown's Body" was the result.

It was a favorite marching tune for the soldiers of 1861-65 who sang it with variations—both sacred and very, very profane! Then Julia Ward Howe took the same music and used it and the "Glory, glory, Hallelujah" chorus in her magnificent "Battle Hymn of the Republic." Thus a song composed as a joke on a brother-in-law has become a part of a national hymn!

NOTICE to Gas Customers

In compliance with a law passed at the last session of the Legislature, Your Gas Company will begin to odorize the gas supplied to its customers within the next few days.

If you should notice an unusual odor about your premises, your gas piping and connections should be checked for leaks. For this purpose we advise that you call your plumber in order that any necessary repairs can be made.

Odorization of gas does not affect your gas service, but it may enable you to determine whether your gas piping needs attention.

Caution:

Do not look for leaks with matches or an open flame of any kind.

OUT DOOR GAMES

The Home Demonstration Club of Swedonia met with Mrs. Tarlton Willingham, July 13, and had a general discussion on "Out Door Games for the Family."—also equipment.

Six members were present with Mrs. White and Miss Bailey visiting. The hostess served punch and macaroons.—REPORTER.

ROCKY MOUNTAIN FEVER

APPEARS IN SOUTHEAST TEXAS

AUSTIN, July 21.—Appearance of the dread Rocky Mountain Fever in Texas was evident this week when two cases of the disease reported in Southeast Texas were officially diagnosed as such by Dr. R. B. Spencer, spotted fever expert of the United States Public Health Service. Dr. Spencer, vacationing in San Antonio was pressed into service by State Health Officer Dr. Geo. W. Cox, to diagnose the two cases, one of which proved fatal.

Dr. Spencer's diagnosis is the first official recognition of the presence in Texas of spotted fever, a disease transmittable to men by the bite of infected ticks. Although many wood and dog ticks are not infected with the fever, the disease in man is serious enough to warrant the practice of precautionary measures. A person with spotted fever will develop the disease within 2 to 12 days after receiving the infection.

When the ticks appear, they are unfed and are seeking some animal to attach themselves to and suck blood. When the tick drops on an animal, including man, it does not start feeding at once, but usually spends some time searching for a suitable place. Experiments have shown that a previously unfed tick will attach itself to the body and feed for a few hours before transmitting the infection but it then becomes highly infectious.

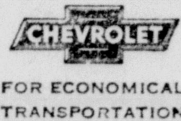

Three measures may be used to prevent spotted fever; avoid ticks, remove ticks from the person as soon as possible, or be vaccinated. Vaccine to prevent spotted fever is not readily available so precaution should be used to avoid or eliminate ticks from the person immediately.

Attorney and Mrs. Frank Taylor, of Fort Worth, are spending their vacation here with their parents, Dr. and Mrs. J. F. Taylor. They will be here until the first of August.

McCAULLEY MATTERS

By JOHN P. HARDESTY

(Received too late for last week)

Rev. Wiley B. Glass returned missionary from China, a brother of Mrs. W. H. Stephenson of McCaulley, will occupy the Baptist pulpit next Sunday at 11 o'clock. Bro. Glass will sail with his wife in a few weeks for China, where they will resume their labors. Their children will remain in Waco to attend Baylor University.

Rev. F. C. Dick, pastor of the McCaulley Baptist church from 1906 to 1910, filled the local pulpit Monday evening at 8:30. He and his wife were returning from Coffeyville, Kansas, where they had spent several months, to their home at Phoenix, Arizona. While in McCaulley they were guests of the Hardesty's, friends for the past thirty years. Rev. C. E. Dick, a former pastor for some eight years, was present at the services, to worship with his preacher brother. His daughters, Mrs. Edith Miers and Mrs. Margaret Carter, the latter of Crosbyton, were also present. Mrs. Miers accompanied Mrs. Carter to her Crosbyton home on Tuesday for a visit with her, and other relatives and friends in that section. From there she will go to Memphis to visit Mr. and Mrs. Sam Hardy.

Mrs. Nelson Hutto, and little daughters, Emily Frances and Erma Nell, of Dallas are visiting Mr. and Mrs. John P. Hardesty, parents and grand parents, respectively. They have just returned from Post where they visited the Homer Hutto family.

Rev. J. R. Bateman, the pastor, is conducting a revival at Neinda M. E. church this week. Bro. Hanks, of Hamlin, Methodist pastor, is assisting in the meeting.

Mrs. Lily Graham and son, Monroe, from Melvin, Texas, are visiting the Lee Hendon and Jack Griffith families. Mrs. Graham is a sister to Mrs. Hendon and Jack Griffith.

Mrs. W. H. Stephenson and daughter, Ora, returned Saturday from a two weeks visit with relatives in Dallas, Talco, and other East Texas points.

A large number of the Boy Scouts will go to Barnhart next week for an outing with the scouts from the other towns of the Buffalo Trail division. Mr. J. W. Hendrickson is Scout Master of the local troop.

J. W. Smith and two daughters, Mrs. Charles Kesterson and Miss Norma Smith, are visiting the W. C. Kean family. Mr. Smith is the father of Mrs. Kean, while the daughters are sisters of Mrs. Kean. Mr. Smith and Mrs. Kesterton live at Pattsburg, Miss Smith lives at Jefferson.

W. B. Hendon, who has been at Melvin for several weeks, has returned to his home here. He is the son of Mr. and Mrs. Lee Hendon.

Dr. Wiley B. Glass, missionary to China for the past 35 years, now home on furlough, occupied the pulpit of McCaulley Baptist church at both hours Sunday, July 18. Dr. and Mrs. Glass were guests of his sister, Mrs. W. H. Stephenson and family, of this community, over the weekend. Their son, Bryan, and daughter, Gertrude, were also guests with them. They and Mrs. Glass brought fine messages to the Training Union of the church Sunday evening at 7:45. The son and daughter are students in Baylor University. They will remain in Baylor while Dr. and Mrs. Glass will sail soon for their field of labor in China.

Minister Rex Barnard, of Oklahoma, is conducting a revival meeting for the local Church of Christ members.

The Methodist pastor, J. R. Bateman, announces a revival for his congregation to begin Sunday evening, Aug. 1st. Rev. W. E. Fisher, Rotan, will assist in the meeting.

Scout Master J. W. Hendrickson and Supt. D. L. Smith accompanied the following Boy Scouts to Barnsdale to the Scout Camporee Monday evening: Ray Hennington, John Hendrickson, Joseph Miles, Donald Hendrickson, Theron Williams, Frank Jeffrey, Billy Max Waldrop, James Parker. They will return Tuesday July 27.

The people here are rejoicing in the fine shower of rain which fell early Tuesday morning. Crops are doing well, but feed would do much better with some more rain.

The following Y. W. A. girls attended the Girls' Camp at Lueders from Monday to Wednesday of this week: Mrs. Jack Johnson, Alline Akins, Lilly Akins, Katie Akins, Ruby Rheton and Dorothy Mills.

M. L. Akins went to Abilene Tues-
